### Bsa Sloper Engine

The BSA S-Series of motorcycles, most commonly known as the BSA Sloper, were a series of motorcycles produced by the Birmingham Small Arms Company (BSA) from 1927–1935. Launched in 1927, the 493cc overhead valve engine was slanted, and the motorcycle featured a saddle tank that enabled a low seating position, improving the centre of gravity and handling.

### BSA Sloper - Wikipedia

Factory shot of 1928 Sloper with sporty turned-down handlebars. Lights were an extra. BSA's Model S was launched into a world of traditional 'flat-tank' motorcycles in 1927 – and caused a sensation. With a shapely saddle tank, fashionable sloping engine and low seat height, its looks began a trend which would last well into the 1930s.
