The Sun is the star at the center of the Solar System. It is a nearly perfect sphere of hot plasma, heated to incandescence by nuclear fusion reactions in its core, radiating the energy mainly as visible light and infrared radiation. It is by far the most important source of energy for life on Earth. Its diameter is about 1.39 million kilometres (864,000

With the whole story of Billy Madison revolving around him going back to school at the age of 27, it makes sense that Billy is kind of, in his own words, “an idiot.” During one of his several graduation parties, Billy and Veronica began to bond a bit. As they are walking through Billy’s yard, Billy explains,
